We love volunteers!

Did you know? The Issaquah School District ranks in the **bottom 10%** for per-pupil State funding. **We are 292nd out of 295 districts!** This equates to a shortfall of \$1 million annually for Newcastle Elementary. **What does the State or District fund?**

Books? No. Technology? Very limited. Science? Very limited. Art? No.

The money raised at our biennial auction is a priority as it helps bridge the gap left by decreases in State funding and provides our Newcastle Elementary students with key educational resources.
